Yash Kale

Summary

I am a software developer at SRS Consulting Inc. with 4+ years of experience in Golang. I specialize in building scalable and efficient applications using Golang's.

My expertise in Golang and AWS has allowed me to work on a range of projects, from web development and networking to database access and distributed systems. I have a strong understanding of Golang libraries and frameworks, and I am always eager to explore new tools and technologies to improve my skills and stay current in the industry.

As a software developer, I am committed to delivering high-quality code that meets the needs of my clients and end-users. I enjoy collaborating with teams and working on challenging projects that push the boundaries of what is possible with technology.

Skills

- Go lang.
- AWS - Solutions Architect.
- Kubernetes
- Terraform

- Event Driven Architecture.
- Serverless Architecture.
- REST API / Websockets / SSE
- Microservices.

- Docker.
- MySQL / MongoDB / DynamoDB

Experience

SOFTWARE ENGINEER 10/2022 - Current
SRS Business Solutions (India) Pvt. Ltd. (A Subsidiary of SRS Consulting Inc. USA), Bengaluru, India

Designing and developing Rest APIs, microservices, and other applications using the Golang programming language.
This includes writing high-quality, maintainable, and efficient code that meets the requirements of the project.
I work closely with other members of team, as well as stakeholders and other cross-functional teams, to design, develop, and deliver software solutions that meet the needs of the project.
Participate in code reviews and provide constructive feedback to improve code quality

FULL STACK SOFTWARE ENGINEER 08/2019 - 09/2022
SimSol Technologies And Services Private Limited, Mumbai, India

Participate in daily stand-up meetings to discuss progress, challenges, and priorities with the team.
Develop and maintain web applications using Python, Golang, Flask, and VueJS.
Design and implement RESTful APIs to connect frontend and backend systems.
Participate in code reviews to ensure code quality and adherence to established coding standards.
Communicate progress, challenges, and solutions to the project manager or other stakeholders.
Document development processes, procedures, and code for future reference.
Troubleshoot and debug issues, identifying the root cause and implementing solutions.

Education

Bachelor of Science, Computer Science Engineering, 08/2022
Everest Education Society Group of Institutions., Aurangabad, Maharashtra, India
